

Table A-1. Tasks and Responsibilities by Cooperator							
Objective	Task						
		B L M	N D O W	N N H P	U S F W S	U S F S	U N C E
1	Determine the overall distribution of Columbia spotted frogs.	C	L	P	P	C	P
2	Assess the abundance of Columbia spotted frogs, habitat conditions, and existing and potential threats at occupied sites.	C	L	P	P	C	P
3	Ensure that viable populations and their habitats are managed and enhanced to ensure the continued existence of Columbia spotted frogs throughout their historic range.	C	L	P	P	C	P
4	Conduct research that directly supports conservation and management of Columbia spotted frogs and their habitat.	C	L	P	C	P	P
5	Implement through administrative procedures the CAS and incorporate provisions of the conservation strategy into agency planning documents and budgets to ensure the conservation goals and objectives are met in a consistent manner.	ALL					
6	Develop and implement an interagency adaptive management framework partnership.	ALL					
7	Support the CAS by increasing public awareness and appreciation for Columbia spotted frogs and their habitat, and by making data and information available to interested parties and decision makers.	ALL
